

Fledglings Spring Term 1 Homework

Here is a list of suggested activities for homework this term. We would love for you to try one or more of the activities listed below. Also, feel free to suggest your own ideas/activities. We would love to see them! Send any completed homework to Seesaw/email or bring into school for show and tell.

Look at the sky at night. Can you see any stars? Can you spot any constellations? Can you spot any planets?	Look at the moon in the evening. Watch how it changes. Can you draw the different shapes of the moon or take some pictures?	Create your own rocket from using cardboard boxes or any materials you can find in your house.	Paint or draw a planet. Which one did you draw? Can you tell us any facts about your planet?	Can you find some non-fiction books about space? Do you have any at home? Do you have any fiction stories about space? Share a story with an adult.
Make a cup of hot chocolate, wrap up warm and go on a walk looking at the stars. Take a book and read it outdoors under the moonlight.	Watch a rocket launch online with your family. Write down some of the sounds a rocket makes (zoom, whoosh, boom, bang, fizz)	Practise forming your letters correctly using a pencil. Can you get them to sit neatly on the line?	Imagine you are an astronaut. Draw a picture of yourself in a space suit. Tell a grown up what you would take with you into space.	Can you make a number line to ten using objects in your house? 1 teddy, 2 socks, 3 spoons, 4 lego pieces, 5 cups etc. Take a picture and send it to us.
